

Dear all,

The Young Modellers in Ecology (YoMos) group of the GFÖ would like to invite you all to join us for our upcoming 16th workshop on the 25-27th of May.

This year's workshop will take place online and will feature a combination of short "lightning talks" (5 min.) and longer presentations (15 min.) by participants from a variety of disciplines on their current research, participant lead workshops, as well as presentations by keynote speakers. YoMos members and workshop participants come from a variety of disciplinary backgrounds in early career stages, making the workshop an excellent opportunity for networking with other modellers. Currently confirmed keynote speakers are Oliver Jakoby (Rifcon) and Masahiro Ryo (Brandenburg Technische Universität). Please see our website

(<https://www.yomos.org/next-workshop>) for further details and updates on the workshop.

As this year's workshop will be entirely online and requires no travel, lodging, or conference space expenses, there will only be a small 10€ participation fee.

If you are interested in participating, please visit [yomos.org](https://www.yomos.org) to apply for a spot in the workshop. The deadline for registration is May 18th.

Sincerely,

Your YoMos organizational team

Charlotte Sieger, University of Ghent

Lukas Baumbach, University of Freiburg

Nussaibah Raja-Schoob, University of Erlangen-Nürnberg Sarah Franz, University of Würzburg Robin Rölz,
University of Würzburg Joseph Tardanico, University of Würzburg
